Pressure-relief Seat
(Anti decubitus)

HMN’s Pressure-relief Seat is designed to reduce pressure / shear and thereby prevent or treat pressure ulcers.

The seat can prevent and treat pressure ulcers up to grade 3.

The anatomical shape of the seat surface and material permissiveness ensure the users stability in the sitting position.

The seat comes as an intimate seat and is therefore suitable for shower / commode chairs with intimate seats.

The Pressure-relief Seat fits Nielsen Line and M2 shower/commode chairs. (except the M2 Mini models).

The seat is placed on the top of the existing seat and can easily be removed.

On the XL models (M2 200 kg. / M2 200 kg Motor / M2 300 kg and M2 El-tip Wide) the seat doesn't cover the entire seating surface on the chair. ➔
# Pressure-relief Seat

## Technical data:
- **Size**: Width: 46 cm / Depth: 50 cm / Height (unloaded): 11.5 cm
- **Weight**: 2.3 kg.
