

## Accessories for shower/commode chair M2

### Seats and foam seats for M2 shower/commodes

Standard seat

Seat with extra large hole

Lid

↑ All M2's (except for M2, 200 kg's and M2 300 kg's) can be delivered with either standard seat or seat with extra large hole.

The seat is 4,5 cm thick and made with integrated soft pu foam. Bucket holder is integrated as well. The seats are clicked off and on the chair frame. With this system you can easily change between the two seat types. Lid comes as standard when you buy a chair.

Supersoft grey foam seat

↑ Supersoft grey foam seat made of polymer foam. Without cover. Comes with a hole and without a hole. Is tied on top of the normal seat with 4 strings.

White foam seat

↑ White foam seat with plastic cover. All edges are welded. Is tied on top of the normal seat with 4 strings

Seat with small hole

↑ Liner with aperture in PU foam. Can be placed directly on top of a standard M2 seat to provide a softer seating and a smaller aperture.

**HMN** since 1934
